

IRVINE RANCH HISTORIC PARK ENTRANCE IMPROVEMENTS

Construction Coming . . .

December 2009 - Spring 2010

Construction updates also available at
ocparks.com or by calling (949) 585-6422.

Project Information:

Primary goals for this project are to:
1) provide safe access to the park per ADA standards; 2) increase the general safety for park visitors; 3) improve traffic flow at the intersection; and 4) enhance the aesthetics at the park entrance and views from Irvine Blvd.

Key improvements include new:
sidewalk and ramps; traffic signals; underground drainage system; and enhanced landscaping. The concept for the landscape is to retain the historic streetscape by using a plant palette that has historic significance to the Ranch and is also water conserving.

PLEASE DRIVE SAFELY
